## Connections

The Epson EB-2055 standard portable LCD projector has 5000 Ansi lumens, a contrast of 15000:1 and an XGA 1024 x 768 resolution. The lamp life is up to 10,000 hours, which is equivalent to over 13.7 years at 2 hours of use. The integrated media player can play files directly. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 616 cm is possible, if the image width is smaller (we recommend max. 411 cm), rooms with residual light are also no problem. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. It is also Full HD 1080P compatible. On the market since 2017, the model is no longer offered by the manufacturer Epson.
