

Epson EB-720

EPSON EB-720

A brief introduction to the Epson EB-720. The short-throw LCD laser projector has an XGA 1024 x 768 resolution and a contrast of 2500000:1. The manufacturer claims a laser life of 20000 hours, which translates to over 13.7 years at 4 hours of use. The integrated media player can play files directly. Horizontal and vertical keystone correction makes setting up the picture childs play. As it is a short-throw projector, the projector can be positioned very close to the wall. For a 2 m wide picture, the projector needs to be just 64 cm away from the screen. The projector has Miracast Screen Mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. The model is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector.
