

Epson EB-L260F

EPSON EB-L260F

A brief introduction to the EB-L260F: The Epson standard portable 3D laser LCD projector offers 4600 Ansi lumens, a contrast of 2500000:1 and an HDTV 1920 x 1080 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. Horizontal and vertical keystone correction makes image adjustment childs play. Thanks to the brightness of 4600 Ansi lumens, a picture width of 689 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 459 cm). As the projector recognizes Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. The model is also Full HD 1080P and 3D compatible, and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection.
