EAN/UPC:8715946737997

EPSON EB-L790SU

The short-throw Epson EB-L790SU laser LCD projector has 7000 ANSI lumens, a contrast ratio of 5000000:1, and a WUXGA 1920 x 1200 resolution. Thanks to laser technology, the projector has a light life of up to 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The integrated lens shift gives you freedom when setting up the projector. Thanks to the short-throw projection ratio of only 0.79:1, the projector does not interfere with the room. For a 2m wide image, the projector only needs to be 158 cm away from the screen. If the image width is not sufficient, the projector offers integrated edge blending software, which allows multiple projectors to project a large image together. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). The model is also Full HD 1080P compatible and even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to its 360° projection.

3 x LCD Panel
WUXGA 16/9 Liquid Crystal Display
