

Epson EB Z11000W

EPSON EB Z11000W

The Epson EB Z11000W LCD projector has 11000 Ansi lumens, a contrast of 15000:1 and a WXGA 1280 x 800 resolution. The built-in lens shift and keystone correction function provides freedom when setting up. Thanks to the brightness of 11000 Ansi lumens, a picture width of 1066 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 711 cm). If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. The projector was launched in 2014 and is no longer sold by the manufacturer.
