

Epson USA Lifestudio Pop Plus Navy

EPSON USA LIFESTUDIO POP PLUS

The Lifestudio Pop Plus Navy LED LCD has 875 ANSI lumens, a contrast ratio of 5000000:1, and HDTV 1920 x 1080 resolution. The LEDs have a service life of 20,000 hours, which equates to over 13.7 years at 4 hours per day. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. The brightness of 875 ANSI lumens allows for an image width of 301 cm. In room lighting, the image should be a maximum of 201 cm wide. Thanks to Google TV, the projector can be conveniently controlled by voice command. Since the projector recognizes Chromecast, Airplay, and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P without any problems. With an operating noise of only 24 decibels, this model is very quiet compared to others.
