

Epson USA Powerlite L630U

EPSON USA POWERLITE L630U

The Epson USA model Powerlite L630U is an LCD laser projector with WUXGA 1920 x 1200 resolution and a contrast of 2500000:1. The life span is 20000 hours due to the laser, which is equivalent to over 13.7 years at 4 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. Includes a lens shift and keystone correction function, which provides freedom during installation. Thanks to the brightness of 6200 Ansi lumens, a picture width of 800 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 533 cm). Playing 1080P is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to the 360° projection.

 3 x 0,67" LCD TFT Panel
WUXGA 16/9 Liquid Crystal Display
