EAN/UPC:8715946737997

EPSON USA POWERLITE L790SU

The PowerLite L790SU at a glance: The Epson USA laser LCD projector offers 7000 ANSI lumens, a contrast ratio of 5000000:1, and a WUXGA 1920 x 1200 resolution. Thanks to the laser, the projector has a specified light life of 30,000 hours, which is over 20.5 years when used for four hours a day. The built-in lens shift and keystone correction function give you freedom in adjusting the projection. With a projection ratio of only 0.79:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 158 cm away from the screen. If the image is still too small, the integrated edge blending software can help to project a large image using additional projectors. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Even 1080P video signals are no problem for the projector, which can project Blu-rays onto the ceiling thanks to its 360° projection.
