

Epson USA PowerLite L890U

EPSON USA POWERLITE L890U

The PowerLite L890U laser LCD projector from Epson USA has 8000 ANSI lumens, a contrast ratio of 5000000:1 and a WUXGA 1920 x 1200 resolution. Thanks to the laser, it has a service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The lens shift function allows the projector to be positioned very freely. The brightness of 8000 ANSI lumens allows for an image width of 909 cm. The projector can also handle slightly brighter rooms with a smaller image width (we recommend max. 606 cm). If the image width is not sufficient, the projector offers integrated edge blending software, which allows multiple projectors to project a large image together. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs with Android, Windows, or iOS via Wi-Fi. The model is also Full HD 1080P compatible and even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to its 360° projection.
