

ETOE Whale E3 Pro

ETOE WHALE E3 PRO

The standard portable Whale E3 Pro LED LCD projector from ETOE has 1500 ANSI lumens, a contrast ratio of 3000:1 and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a specified light life of 160,000 hours, which is over 109.6 years when used for four hours a day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. An image width of up to 393 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 262 cm. The integrated Android TV software provides direct access to a wide range of streaming services such as Netflix, Disney+, Amazon Prime Video, and YouTube, as well as games and other interactive content. The integrated Google Assistant in the projector opens up many practical possibilities such as voice control, navigation, smart home control, and listening to music. The model recognizes Chromecast, Airplay, and screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). It is also compatible with Full HD 1080P and 4K (compressed).
