

Everest SX 880SP

EVEREST SX 880SP

The SX 880SP LCD has 2500 Ansi lumens, a contrast of 500:1 and an XGA 1024 x 768 resolution. A picture width of up to 435 cm is possible. However, the image should be smaller in room light. We recommend max. 290 cm. The projector also offers a whiteboard function that makes training and presentation rooms interactive. On the market since 2009, the model is no longer offered by the manufacturer Everest, but is still very popular in our projector database.
