

FEARWIKY P3

The P3 LED LCD projector from FEARWIKY has 450 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the projector is specified as having a lamp life of 30,000 hours, which translates to over 20. 5 years if used for 4 hours a day. Horizontal and vertical keystone correction ensures that setting up the image is child's play. Thanks to its 450 ANSI lumens, the projector can illuminate a screen width of up to 216 cm effectively. However, in well-lit rooms, the screen width should ideally be less than 144 cm. The model recognises AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Furthermore, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. Even 1080p and 4K (compressed) are no problem for the projector.

Brief Introduction

Beta 2.5

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

450

200 Lux (200 cm Screen width)

Contrast
