

FSZBWL HY300

FSZBWL HY300

Manufacturer FSZBWL offers the HY300, a portable LCD LED projector with HDTV 1280 x 720 resolution and a contrast ratio of 1500:1. Manufacturer FSZBWL specifies a service life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. It includes an integrated media player that allows files to be played directly. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. The brightness of 120 ANSI lumens allows for an image width of 111 cm. In room lighting, the image should be no wider than 74 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, Bluetooth is a useful addition to the projector, especially for wireless audio transmission. Furthermore, it is compatible with Full HD 1080P and 4K (compressed). The operating noise of only 25 decibels makes the projection quiet.
