

Giaomar Full HD 1080P 15000 Lumen

GIAOMAR FULL HD 1080P 15000 L

Brief Introduction

Beta 2.5

The standard portable Giaomar Full HD 1080P 15000 lumen LED LCD projector has 450 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 100000 hours, which is over 68.5 years with a daily viewing time of 4 hours. 216 cm picture width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 144 cm. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. Video signals 1080P and 4K (compressed) are also no problem for the projector.
