

GROVIEW JQ818C

GROVIEW JQ818C

The GROVIEW JQ818C standard portable LED LCD projector has 490 Ansi lumens, a contrast of 12000:1 and an HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 100000 hours of light life, which converts to over 68.5 years at 4 hours per day. The integrated media player can play files directly. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector can illuminate images up to 225 cm wide thanks to its 490 Ansi lumens. In room lighting, however, the image width should ideally be less than 150 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.

Brief Introduction

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

490

218 Lux (200 cm Screen width)
