

Hachi Infinite M1

HACHI INFINITE M1

Brief Introduction

Beta 2.5

With the Infinite M1, manufacturer Hachi offers a short-throw DLP projector with HDTV 1280 x 720 resolution and a contrast of 600:1. Thanks to the short-throw projection ratio of just 0.39:1, the projector is also not distracting in the room. For a 2m wide image, the projector only needs to be 78 cm away from the screen. As the projector recognizes DLNA, Airplay and Miracast screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The projector can also play 1080P without any problems. With only 30 decibels of operating noise, the model is already very quiet compared to others. This model is no longer offered by Hachi.

Display Type

1 x DLP Chip
