

HausKit HY320

HAUSKIT HY320

The Game-portable HausKit HY320 LED LCD projector has 350 ANSI lumens, a contrast ratio of 15,000:1 and an HDTV 1280 x 720 resolution. The LEDs give the projector a light lifespan of up to 30,000 hours, which is the equivalent of over 20.5 years at 4 hours a day. The integrated media player allows you to play files directly. The horizontal and vertical keystone correction provides flexibility when setting up. At 190 cm image width, the projector will be able to illuminate well. However, if room light is present, the image width should not exceed 127 cm. The model recognizes Airplay and Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The projector can also handle video signals of 1080p with ease. At 25 decibels, the projector is very quiet compared to others.
