

Hewlett Packard IP400

HEWLETT PACKARD IP400

The Hewlett Packard IP400 LED DLP projector has 400 Ansi lumens, a contrast of 500:1 and an HDTV 1280 x 720 resolution. The service life of the LEDs is 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. A picture width of up to 203 cm is possible. However, the picture should be smaller in room light. We recommend max. 135 cm. Thanks to the built-in 13,200 mAH (rechargeable) battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by Hewlett Packard.

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Projector	400	178 Lux (bei 200 cm Screen)
