Hewlett Packard MC450

Brief Introduction Beta 2.5	The MC450 LED LCD has 188 ANSI lumens and an HDTV 1280 x 720 resolution. Thanks to the LEDs, the projector has a specified light life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. Since Hewlett Packard specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The projector can illuminate up to 139 cm of image width with its 188 ANSI lumens. However, in room lighting, the image width should ideally be less than 93 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. The model is also Full HD 1080P compatible.
Display Type	1 x LCD Panel HDTV 16/9 Liquid Crystal Display
Ansi-Lumen	Projector: 188 / 150 ISO Lumen — Screen: 84 Lux (200 cm Screen width)
