

Hisense PX1

EAN/UPC:888143012704

Brief Introduction

Beta 2.5

The PX1 DLP has 2,000 ANSI lumens, a contrast ratio of 1,000,000:1 and a UHD (4K2K) 3840 x 2160 resolution. As it is a short-throw projector, it can be placed very close to the wall. To project a 2-metre-wide image, the projector needs to be just 50 cm away from the screen. Thanks to the built-in Android TV software, it offers direct access to a wide range of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube, as well as games and other interactive content. The projector supports Chromecast and screen mirroring, enabling high-resolution videos and surround sound to be streamed via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. In addition, the Bluetooth capability is a useful addition to the projector, particularly for wireless audio transmission. It is also compatible with Full HD 1080p and 4K. The model was manufactured by Hisense in 2022 and is no longer the latest model, but it remains one of the most popular projectors.

1 x 0,47" DLP Chip
