

Hitachi CP X4030WN

HITACHI CP X4030WN

The Hitachi CP X4030WN standard portable LCD projector has 4200 Ansi lumens, a contrast of 5000:1 and an XGA 1024 x 768 resolution. The manufacturer specifies a lamp life of 5000 hours, which is over 6.8 years if enjoyed for two hours a day. The integrated media player can play files directly. As the CP X4030WN is equipped with a microphone jack plug and 16W speakers, no additional audio system is required for presentations or training courses. Thanks to the brightness of 4200 Ansi lumens, a screen width of 564 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend max. 376 cm). Even 1080P video signals are no problem for the projector. The model built in 2014 is no longer offered by Hitachi.
