

Hitachi LP-TW4001

HITACHI LP-TW4001

A brief introduction to the Hitachi LP-TW4001. The short-throw LCD laser projector has a WXGA 1280 x 800 resolution and a contrast of 500000:1. The manufacturer Hitachi specifies a service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The horizontal and vertical keystone correction allows the projector to be positioned very freely. Thanks to the short throw projection ratio of just 0.3:1, the projector does not stand in the room. For a 2m wide image, the projector only needs to be 60 cm away from the screen. The HDMI MHL (Mobile High-Definition Link) port makes it possible to transmit a 1080p / 60 Hz image mirroring (screen mirroring) from the smartphone while it is being charged at the same time via the connection. Even 1080P video signals are no problem for the projector. The model built in 2018 is no longer offered by Hitachi.
