

HongTianPao HD66

The HD66 LCD has 126 Ansi lumens, a contrast of 800:1 and a WVGA 800 x 480 resolution. The manufacturer specifies a lamp life of 6000 hours, which would be over 8.2 years with a daily viewing time of 2 hours. As HongTianPao specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. The projector can illuminate a screen width of up to 114 cm well with 126 Ansi lumens. In room lighting, however, the picture width should ideally be less than 76 cm. Playing 1080P is also no problem for the projector. This model is no longer offered by HongTianPao. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither original nor replica.
