Features

The Hughes-JVC D360SC ILA projector has 5200 Ansi lumens, a contrast of 1200:1 and an HDTV 1920 x 1080 resolution. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 733 cm is possible as the projector has 5200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 489 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. The model is no longer offered by Hughes-JVC.

ILA Chip
HDTV 16/9

5200
1200:1 full on/off
4,3333 min. Lumen

HDTV 1920 x 1080
