

i3-Technologies i3PROJECTOR L3502W

The Whiteboard i3-Technologies i3PROJECTOR L3502W laser DLP projector has 3500 Ansi lumens, a contrast of 1800:1 and a WXGA 1280 x 800 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The projector also offers an integrated media player that can be used to play files directly. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. An image width of up to 601 cm is possible as the projector has 3500 Ansi lumens. The projector creates rooms with residual light with a smaller image width, max. 401 cm is recommended. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from the smartphone while it is being charged at the same time via the connection. 1080P playback is also no problem for the projector. This model is no longer offered by i3-Technologies, but is still a very popular projector.

Brief Introduction

Beta 2.5

Display Type

1 x 0,65" DLP Chip

WXGA 16/10 Ti Digital Light Processing Chip
