

InFocus IN1089SL

INFOCUS IN1089SL

The IN1089SL at a glance: The InFocus Standard Portable Laser DLP Projector offers 5000 ANSI lumens, a contrast ratio of 3000000:1, and a WUXGA 1920 x 1200 resolution. Thanks to laser technology, the projector has a light life of up to 20,000 hours, which equates to over 13.7 years of enjoyment at four hours per day. It includes a lens shift and keystone correction function, which provides flexibility during installation. The projector can illuminate an image width of 718 cm. The projector can handle rooms with residual light with a smaller image width; we would recommend a maximum of 479 cm here. Playing 1080P and 4K (compressed) is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection.

1 x 0,67" DLP Chip
WUXGA 16/9 Ti Digital Light Processing Chip
