

InFocus IN2124z

INFOCUS IN2124Z

Brief Introduction

Beta 2.5

The standard portable InFocus IN2124z 3D BrilliantColor DLP projector has 3200 Ansi lumens, a contrast of 4000:1 and an XGA 1024 x 768 resolution. Due to the lamp, the projector is specified with 3500 hours of lamp life, which is over 4.8 years with a daily viewing time of 2 hours. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. Thanks to the brightness of 3200 Ansi lumens, a picture width of 493 cm is possible. In room light, the image should be max. 329 cm wide. The projector can also display 1080P and 3D without any problems. With an operating noise of just 30 decibels, the model is very quiet compared to others. On the market since 2013, the model is no longer offered by the manufacturer InFocus.
