

InFocus IN2128HDa

INFOCUS IN2128HDa

A brief introduction to the IN2128HDa: The InFocus 3D BrilliantColor DLP projector offers 3500 Ansi lumens, a contrast of 15000:1 and an HDTV 1920 x 1080 resolution. The service life is 3500 hours, which converts to over 4.8 years at 2 hours per day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the brightness of 3500 Ansi lumens, a picture width of 601 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 401 cm). Video signals 1080P and 3D are also no problem for the projector. On the market since 2014, the model is no longer offered by the manufacturer InFocus.
