

Jmgo N5S Pro Max

J M G O N 5 S P R O M A X

The Jmgo N5S Pro Max 3D Laser DLP home theater projector has 3,600 ANSI lumens, a native contrast ratio of 10,000:1, and a UHD (4K2K) 3840 x 2160 resolution. The manufacturer, Jmgo, specifies a lifespan of 20,000 hours, which would equate to over 13.7 years based on 4 hours of daily use. The projector also offers a lens shift function for flexible projection adjustment without any loss of quality. Since Jmgo specifies the projector's brightness in lumens, we've calculated an approximate ANSI lumen value in this case. 3,600 ANSI lumens ensure that an image width of up to 880 cm is possible. In rooms with ambient light, the projector performs best with a narrower image width; we'd recommend a maximum of 587 cm. Additionally, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The projector also handles 1080p and 4K video signals as well as 3D with ease, and thus the projector can recognize all currently available Blu-ray formats.
