

JOWLURK M7

JOWLURK M7

The JOWLURK M7 standard portable LED LCD projector has 1200 ANSI lumens, a contrast ratio of 20000:1 and an HDTV 1920 x 1080 resolution. The projectors LEDs give it a light lifespan of up to 30000 hours, which, at 4 hours of viewing per day, would be over 20.5 years. Horizontal and vertical keystone correction makes image setup a breeze. Since JOWLURK indicates the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The 1200 Ansi lumen brightness allows for a picture width of 352 cm. In room light, the picture should be max. 235 cm wide. The model recognizes Airplay and Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Video signals 1080P and 4K (compressed) are also no problem for the projector.
