

JVC DLA HD10K/So/DVDO/E/U

JVC DLA HD10K/So/DVDO/E/U

A brief introduction to the JVC DLA HD10K/So/DVDO/E/U. The high-end home cinema DILA projector has an HDTV 1920 x 1080 resolution and a contrast of 2000:1. The projector can be positioned very freely using the lens shift function. An image width of up to 249 cm is possible. However, the image should be smaller in room light. We recommend max. 166 cm.

Furthermore, the projector can play 1080P without any problems. The projector is very quiet compared to others with an operating noise of 27 decibels. The model built in 2006 is no longer offered by JVC. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.

3 x 0,82" D-ILA Chip

HDTV 16/9 Direct-Drive Image Light Amplification (D-ILA)
