

JVC DLA HD10 KS/So/E/U

JVC DLA HD10 KS/So/E/U

The JVC DLA HD10 KS/So/E/U DILA projector has 600 Ansi lumens, a contrast of 2000:1 and an HDTV 1920 x 1080 resolution. The built-in lens shift function provides freedom when setting up. A picture width of up to 249 cm is possible. However, the picture should be smaller in room light. We recommend max. 166 cm. The projector can also play 1080P without any problems. The operating noise of only 27 decibels makes the projection quiet. This model is no longer offered by JVC, but is still one of the very popular projectors. It should also be noted that, unfortunately, there are no longer any replacement lamps available for this projector, neither originals nor replicas.
