

JVC DLA-X7500

JVC DLA-X7500

A brief introduction to the DLA-X7500: The JVC high-end home cinema 3D DILA projector offers 1900 Ansi lumens, a contrast of 130000:1 and a UHD (4K2K) 3840 x 2160 resolution. The projector also offers a lens shift function that makes image adjustment child's play. 1900 Ansi lumens ensure that a picture width of 443 cm is also possible. However, if room light is available, the picture should be a maximum of 295 cm wide. The model is also compatible with Full HD 1080P and 4K as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 21 decibels makes the projection quiet. It was launched in 2017 and is no longer offered by the manufacturer JVC.
