

LG Cinebeam HU70LAB

LG CINEBEAM HU70LAB

The Cinebeam HU70LAB 3D LED DLP home cinema projector from LG has 1500 Ansi lumens, a contrast of 150000:1 and a UHD (4K2K) 3840 x 2160 resolution. Due to the LEDs, the projector is specified with 30000 hours of light life, which is over 20.5 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. A picture width of up to 393 cm is possible. However, the picture should be smaller in room light. We recommend max. 262 cm. Playing 1080P and 4K as well as 3D is also no problem for the projector, and therefore all Blu-ray formats currently available can be recognized by the projector. This model is no longer offered by LG.

Brief Introduction

Beta 2.5

Display Type

1 x 0,47" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 1500
