LG CINEBEAM HU810PW

The LG model Cinebeam HU810PW is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 2000000:1. The manufacturer LG specifies a service life of 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The projector also offers an integrated media player that can be used to play files directly. The built-in lens shift and keystone correction function provides freedom in projection adjustment. 2700 Ansi lumens ensure that an image width of 528 cm is also possible. However, if room light is available, the picture should be max. 352 cm wide. As the projector optionally recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. The model is also Full HD 1080P and 4K compatible. On the market since 2020, the model is no longer offered by the manufacturer LG, but is still one of the very popular projectors.
