

LG PF1000U

LG PF1000U

The LG model PF1000U is a DLP LED projector with HDTV 1920 x 1080 resolution and a contrast of 150000:1. The manufacturer specifies an LED service life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector needs to be just 58 cm away from the screen. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. Playing 1080P and 3D is also no problem for the projector.
