

LG PH450UG

EAN/UPC:8806087862508

LG PH450UG

The PH450UG LED DLP has 450 Ansi-Lumen, a contrast of 100000:1 and a HDTV 1280 x 720 resolution. The lifespan of the LEDs is 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The integrated media player allows files to be played directly. An image width of up to 216 cm is possible as the projector has 450 Ansi lumens. However, if room light is available, the image should be max. 144 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The projector has optional Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. The projector can also play 1080P without any problems. At just 30 decibels, the device is one of the quieter projectors.

1 x 0,45" DLP Chip
