

LG RD JT33

LG RD JT33

The standard portable LG RD JT33 DLP projector has 1100 Ansi lumens, a contrast of 1000:1 and an SVGA 800 x 600 resolution. 1100 Ansi lumens ensure that a picture width of 289 cm is also possible. However, if room light is available, the picture should be a maximum of 193 cm wide. On the market since 2004, the model is no longer offered by the manufacturer LG. It should also be noted that, unfortunately, there are no longer any replacement lamps available for the projector, neither originals nor replicas.
