A brief introduction to the LUFEBEBUT A15+. The standard portable LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast of 16000:1. Due to the LEDs, the projector is specified with 100000 hours of light life, which is over 68.5 years with a daily viewing time of 4 hours. The integrated media player can play files directly. 1000 Ansi lumens ensure that a picture width of 321 cm is also possible. However, if room light is available, the picture should be a maximum of 214 cm wide. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P and 4K (compressed) is also no problem for the projector.
