

Magcubic HY350 Pro

MAGCUBIC HY350 PRO

The Magcubic HY350 Pro model is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 20000:1. It is an LED projector with a light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The integrated media player can play files directly. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. The projector can illuminate up to 245 cm of image width thanks to its 580 ANSI lumens. However, in room lighting, the image width should ideally be less than 163 cm. With the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video, and YouTube, as well as games and other interactive content. The projector has DLNA, Airplay, and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. It is also compatible with Full HD 1080P and 4K (compressed).
