

Maxell MC-WX5506M

MAXELL MC-WX5506M

The Maxell MC-WX5506M LCD projector has 5200 Ansi lumens, a contrast of 10000:1 and a WXGA 1280 x 800 resolution. The lamp in the projector is specified with a lamp life of 4000 hours, which is over 5.5 years with two hours of use every day. The built-in lens shift and keystone correction function provides freedom when setting up. An image width of up to 733 cm is possible as the projector has 5200 Ansi lumens. The projector creates rooms with residual light with a smaller image width, max. 489 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. The projector can also play 1080P without any problems. The model built in 2017 is no longer offered by Maxell.
