

Mitsubishi WD8200U/L

MITSUBISHI WD8200U/L

A brief introduction to the WD8200U/L: The Mitsubishi stationary 3D BrilliantColor DLP projector offers 6500 Ansi lumens, a contrast of 2000:1 and a WXGA 1280 x 800 resolution. The integrated lens shift gives freedom when positioning the projector. 6500 Ansi lumens ensure that a picture width of 819 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 546 cm. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. The model is also Full HD 1080P compatible. The projector was launched in 2010 and is no longer sold by the manufacturer.
