

Nec HT1000

NEC HT1000

The HT1000 DLP has 1000 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. The projector also offers an integrated media player for direct playback of files. Horizontal and vertical keystone correction allows the projector to be positioned very freely. 1000 Ansi lumens ensure that a picture width of 275 cm is also possible. However, if room light is available, the picture should be a maximum of 183 cm wide. Playing 1080P is also no problem for the projector. At 29 decibels, the projector is very quiet compared to other projectors. The model built in 2002 is no longer offered by Nec.

Brief Introduction

Beta 2.5

Display Type

1 x 0,69" 12° DDR DLP Chip
