

Nec P474U

The standard portable Nec P474U LCD projector has 4700 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. The lamp life is specified by the manufacturer as 4000 hours, which is over 5.5 years with a daily viewing time of 2 hours. Includes an integrated media player that can be used to play files directly. Includes a lens shift and keystone correction function, which provides freedom during installation. Thanks to the brightness of 4700 Ansi lumens, a picture width of 697 cm is possible. The projector can also handle slightly brighter rooms with a smaller picture width (we recommend max. 465 cm). The projector can also play 1080P without any problems. It was launched in 2017 and is no longer offered by the manufacturer Nec.

Brief Introduction

Beta 2.5
