

Nec PX2201UL

NEC PX2201UL

The Nec model PX2201UL is a DLP laser projector with WQXGA 2560 x 1600 resolution and a contrast of 10000:1. It is a laser projector with 20000 hours of light life, which is over 13.7 years with four hours of enjoyment per day. Includes a lens shift and keystone correction function, which provides freedom during installation. An image width of up to 1277 cm is possible, if the image width is smaller (we recommend max. 851 cm), rooms with residual light are also no problem. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. It is also Full HD 1080P compatible. Even projection onto the ceiling is possible thanks to the 360° projection.

1 x 0,96" DMD DLP Chip
