

Nec UM361X

NEC UM361X

With the UM361X, manufacturer Nec offers an LCD projector with XGA 1024 x 768 resolution and a contrast of 4000:1. The manufacturer specifies a lamp life of 3800 hours, which is over 5.2 years with two hours of use per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. As it is a short-throw projector, the projector can be positioned very close to the wall. For a 2 m wide image, the projector needs to be just 72 cm away from the screen. The model offers a microphone jack plug and 20W speakers, so no additional audio devices are required for presentations or training courses. The HDMI MHL (Mobile High-Definition Link) port enables 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged via the connection at the same time. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by Nec.
