

Norxe P20 4K 3DS

NORXE P20 4K 3DS

The Norxe P20 4K 3DS is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 4000:1. The manufacturer states a laser lifespan of 20,000 hours, which is over 13.7 years at four hours of use per day. A picture width of up to 643 cm is possible, if the picture width is smaller (we recommend max. 429 cm), even rooms with low light are no problem. Playing 1080P and 4K as well as 3D is also no problem for the projector, and thus all currently offered Blu-ray formats can be recognized by the projector.
