

Norxe P55 6K n-shift

NORXE P55 6K N-SHIFT

The Norxe P55 6K n-shift stationary laser DLP projector has 2500 Ansi-Lumen, a contrast of 2000:1 and a 6K 6144 x 3456 resolution. It is a laser projector with a 100,000-hour light lifespan, which would be the equivalent of over 68.5 years at 4 hours a day. An image width of up to 435 cm is possible. However, the image should be smaller if room lighting is used. We recommend a maximum of 290 cm. If the image width is insufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, it is Full HD 1080P compatible, and can thus project Blu-rays even onto the ceiling using 360° projection.
