

Optoma 4K400x

OPTOMA 4K400X

Brief Introduction

Beta 2.5

Brief introduction to the Optoma 4K400x. The DLP projector has a UHD (4K2K) 3840 x 2160 resolution and a contrast ratio of 1000000:1. Manufacturer Optoma specifies the lamp life as 10,000 hours, which would be equivalent to over 13.7 years at 2 hours per day. Horizontal and vertical keystone correction ensures easy image setup. An image width of up to 643 cm is possible; if the image width is smaller (we recommend max. 429 cm), even rooms with residual light are no problem. The projector can also play 1080P, 4K, and 3D, meaning that it can recognize all currently available Blu-ray formats. At just 28 decibels, the device is one of the quieter projectors available.
