

Optoma DU400

OPTOMA DU400

The Optoma DU400 3D BrilliantColor DLP projector has 4000 Ansi-Lumen, a contrast of 15000:1 and a WUXGA 1920 x 1200 resolution. With the lens shift function, the projector can be set up very freely. The projector can illuminate images up to 643 cm wide thanks to its 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 429 cm is recommended. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. Playing 1080P and 3D is also no problem for the projector. The model was built by Optoma in 2016 and is no longer current.
